Minor in Computer Science

Valencia Community College - 4.0 GPA
Aug 2020 - Dec 2021

ABOUT ME

Born in Kyrgyzstan, I moved to the US in search of opportunities. My love for integrating technology with design led me to study web development at the University of Central Florida.

Passionate about problem-solving and never-ending learning, I am excited to dive into the world of web development and continue refining my skills with the right company.

EXPERIENCE

Weather App using Vanilla JS and API (codedbypolina.com/weather-app)

Application forecasting live weather in any chosen city or current location.
Built using HTML, CSS, JavaScript, and Open API

Responsive Web Desing using Sass (codedbypolina.com/responsive-web)

A single-page responsive website that describes my journey through UCF using HTML, CSS, and SASS.

Personal Portfolio using Bootstrap (codedbypolina.com)

Personal portfolio designed and developed from scratch using HTML, CSS, Bootstrap, and JavaScript.
